Alumni services

Structure
FAU has an extensive FAU alumni network as well as several independent alumni associations, two alumni officers (at the faculties) and the University Association

- Close collaboration between alumni management and alumni associations, faculties and departments
- Regular meetings in order to keep alumni services at FAU transparent and identify synergies

FAU-Community
The FAU Community is the online networking platform for the entire FAU family. After registering, you can create and manage a profile, search for people, get in touch with them and start a conversation.

It is also possible to create groups. These may be based on personal interests or subject-related topics, e.g. as a forum for current and former students of a certain degree programme to get in touch with each other.

The Community can also be used to plan, advertise and organise free events.

Raising scholarships for the Deutschlandstipendium

FAU supports its best students, no matter which subject they are studying. The selection criteria include performance (average grades and length of time spent studying), voluntary work, experience abroad and other personal qualities.

Donors provide a monthly contribution of 150 euros towards a scholarship. The federal government doubles this sum, meaning that students receive a scholarship of 300 euros per month. The funding period is always one year, commencing in the winter semester.

The application period commences in June/July for a scholarship commencing in the funding period of the same year.

The Alumni and Event Management working group advertises for donors who are willing to support students as part of the Deutschlandstipendium scholarship. The working group is also involved in awarding the scholarships and raises awareness for the programme among students.

They welcome any support you can give, for example:

- Raising awareness of the scholarship scheme among companies
- Advertising the Deutschlandstipendium to your students during the application period.
- If you are interested, by agreeing to contribute to a scholarship as a donor:

Advertising for companies

We offer various advertising options for companies. Companies can increase their visibility at FAU either by means of traditional advertising (online, posters or directly on campus), by advertising in FAU magazines or by taking part in FAU events such as new students’ welcome events.
We also offer services with more of a focus on recruiting, such as the FAU job portal ‘FAU Stellenwerk’ (online and on noticeboards) or special events organised in conjunction with companies.

Finally, companies can also sponsor lecture theatres or get involved in programmes offered by the individual faculties.
